

ALUMINUM ANTI-FURL ROTATING POLES

These poles are available in a brushed aluminum, white painted or wood grain finish. The top of the pole rotates on ball bearings so the flag will never tangle. There is no need for an unfurling tube. For the most easiest and versatile installation, these poles come with two flag fasteners for flying a grommeted flag and also with a snap and swivel ring for displaying banners with a pole sleeve and tab. Designed to be used with brackets that accept a 1" outside diameter pole (not included).
